Instead a set of resolutions was passed, which stated that the metalers of the Real Estate Exchange believed that greater benefits would be derived by the intakinants of the city if the city limits were extended so as to include the Erat line of Mourt Hope Cemetery, which is a mile beyond the line planned by Mr. Chapin.

The resolution asked that Mr. Chapin withdraw his petition and present the new time as early as possible. This will keep the extension of the city limits out of the election on April 4 and it is expected that a special election will be called, at which the americal of this property and also of the Lansdowne property will be considered.

## M. A. C. TO HAVE GOOD TEAM IN MEET

Coach Delaney Believes Local Cherry Diamond Club Has Chance to Capture Point Trophy To-Morrow Night.

Although Athletic Director Bassett has d that his team is only in fair shape, it is probable that the Cherry Dia-mond squad will win the point trophy in the St. Louis University meet at the Jai-S. F. Myerson to Head the City Alai building to-morrow night.

The M. A. C. trainer has been working his men for several weeks, but not very hard. He does not want to push them too severely, but would rather have them round into shape gradually. It is probable, with the large squad that has been entered, that the local club will score the greatest number of points.

Coach Delaney of the St. Louis University, who knows what the visiting teams are composed of, states that he believes that the local club will figure better in the contests than the outsiders. He bases his theory on the fact that the M. A. C.

his theory on the fact that the M. A. C. has a good all around team, and that its members are strongest in the places where the outsiders will be weakest.

Ralph Rose has promised Coach Delaney that he will make an effort to again lower the world's record in the shot-put. This event, which is a handicap, is to be one of the best, There will be six or more men in the event who are capable of pushing the sixteen-pound ball a distance of more than forty feet, including Rose, the champion; Draper of Notre Dame, Carrenthers and Rothgeb of Illinois, one or two men from Indiana and Hans Wulff of the M. A. C. In recent competition these boys have all done better than the forty-foot mark.

Draper of Notre Dame, in the sprint and hurdles, is likely to make a new mark, while Leroy Samse, the crack pole vaulter of Indiana, is another athlete who has told Martin Delaney that he will try for a

Emil Freymark, the M. A. C.'s high jumper, will probably be one of the many local men on scratch. Freymark has cleared more than 6 feet, and has a good chance of winning.

Coach Delaney will not work any of his men to-day, but will have the large building open for visiting athletes.

# IN EXCELLENT TRIM

All the Robison Team Seem to Be in First-Class Shape for the Approaching Season.

BY A STAFF CORRESPONDENT. Marlin, Tex. March 18 - At noon to-day Charles Nichels's husky bunch of base ball warriors bale good-by to dear old Marlin, and the city immediately assumed the hue of the deserted village. The "Cliff Dwellers," under charge of Jack Warner, a real live proposition, still remain in the village, but next Saturday the bunch will

evacuate.
With Nochols's band are Michael Angelo Grady, he of the big stick, "Scrapiron" butler, "Wish" Egan, Charles A Nichols, Jack Taylor and "Chappy" Charles McFarland, James Bure, Johany Parrell, Davy Brain and one of the catchers who alternate as infielders. Shannon, Smoot and little Jack Dunleavy complete the regular squad that will play a game at Fort Worth, Tex., to-morrow. They will then work their way back to St. Louis, playing about eleven games along the line. To keep the city in good cheer, M. None of the boys have complained of injuries to their "whips" so far, but M. Staniey Kobison is highly pleased with the result of his tour of inspection, and, if he is of a prophetic cast, the Browns may as well buy a little reserve place in the city morgae.

"Really, don't you know, I am sorry for Mr. McAleer. Jimmy is such a nice sort of a person, but he has not our bunch of hall players. If he starts North right now and loses his entire club he may be lucky enough to tick up a half team. I watched the aggregation in action, and, if we were as sure of the National League pennant as we are of beating the Browns, I would order a silk banner with a gilt fringe and letters of gold right now.

# DEFECTIONS MENACE REPUBLICAN TICKET

Leaders of Talty Combine Worried Over Reported Withdrawals of Candidates.

CHAIRMAN HOWE TO RESIGN.

Organization — Committee Meets To-Night to Fill Vacancies Among Nom-. inecs.

The Republican City Convention had n adjourned two hours before evider to light that there was to be a determine effort within the party ranks against the ticket which had been nominated by the Talty combine.

So forcible was the demonstration made during the day that the slate which was formulated at the caucus Monday night in the printing establishment of Sam Myerson, the Twenty-eighth Ward Commit convention, that some of the candidates who had been run over by the sang which

ruled began to openly rebel. At 19 o'clock Wednes-lay night, a tele phone message was received at the editorial-rooms of The Republic, It was stated over the telephone that the person talking was Jeptha D. Howe, chairman of the Republican City Committee.

"I want you to know," said the voice "that Charles Wiggins has refused to ac cept the nomination for Compiroller, and that the City Central Committee met tonight and substituted in place of Wiggins Charles Dutze of the Seventh Ward." Dutze was a candidate in the convention

against Wiggins. An attempt to reach Mr. Wiggins falled and several members of the City Central Committee, including S. P. Myerson, the chairman of the convention, said that no meeting of the committee had been held. and that to their knowledge no such action had occurred. Judge Talty also made the

same statement. same statement.

The morning party organ appeared yesterday morning and in its report of the convention stated that the committee had substituted Dutze for Wiggins, and carried Dutze's name at the head of the column as a part and parcel of the ticket named, and the explanation which had also been telephoned to The Republic.

It may be stated that The Republic did not make use of the anonymous information, and printed the ticket as it was filed yesterday with the Election Commissioners.

WILL REMAIN ON THE TICKET. Yesterday morning consternation reigned mong the Republican leaders who had been active in framing the combine which ruled with an iron hand at the convention, and a committee was started out in search of Mr. Wiggins. He was located shortly after 5 o'clock in the afternoon. What transpired at the conference was not made public beyond the assertion that the name of Wiggins was filed niong with the rest of the ticket with the Board of Election Commissioners, and that he would remain on the ticket.

on the ticket.

Jeptha D. Howe last night denied his connection with the matter.

"I never called up The Republic or any other paper by telephone Wednesday night," said Mr. Howe, "I was at home all evening and know that there was no meeting of the City Central Committee, of which I am chairman, at least no legally called meeting. I do not know Mr. Wiggins and had no knowledge that he had refused to be a candidate. The man who represented himself as I is a deliberate liar."

HOWE TO RESIGN. Mr. Howe will to-night resign as chairman of the City Central Committee at a meeting of the committee at the Hamilton

Club.

He has all along been opposed to the nomination of Judge Taity, according to Taity leaders. His delegation from the Twenty-seventh Ward glumly watched the proceedings of the Taity machine at the Harmonie Hall convention, and at every oppostunity plurged their yotes against the combine's candidates.

Mr. Howe made, himself a persona non grata to the Taity ites and was saved from being deposed as head of the Republican organization a few weeks ago only by powerful pressure exerted against certain members of the committee, it is said.

His resignation is not wholly unexpected, especially after the Taity maneuvers had outsenerated the old-timers in the political game.

had outkeneraled the old-timers in the political game.

The Taity men will name the new chairman, and will agree, without doubt, upon Samuei F. Myerson of the Twenty-lighth Ward, another concession to Louis P. Aloe and his friends, who took about everything that was loose in good things at the convention. William H. Luiwig of the Thirteenth Ward has been mentioned as a possibility.

The committee will fill any vacancies which may have occurred by the refusal of candidates to accept the nominations handed to them by the convention.

There is one vacancy, at least, and the possibility of others. Louis P. Groffman from the Ninth Ward was nominated for one of the members of the City Council. He has been an active candidate for the place and wanted the nomination, and the

Yesterday he found out that his firm would not nermit him to run and he informed the committee that he was out of the race. BIRGE MAY WITHDRAW.

It was rumored around the City Hall yesterday that Walter W. Birge, another of the camildates for the City Council would have to withdraw his name because of his age. It was said that Mr. Birge, who is a member of the House of Delegates from the Twenty-seventh Ward, is but 3 years old, and that the qualifications for member of the Council include the requirement that the incumbent must be at least 30 years old. Mr. Birge could not be located last night, and the state-ment was made at his home that he was out of the city.

The City Central Committee will arrange for the erganization of the campaign. It was stated by a member of the committee last night that the fight was to be carried into every precipet of the be carried into every precinct of the city and that it would be principally a speaking company, as far as the Republicans were concerned. The closing of a ninety-nine-year lease yesterday on the property at the southwest corner of Sixth and Chestnut streets insures the erection there at an early date of a modern office building that may become the headquarters of many of the real estate firms now doing business along Chestnut street.

The property was leased to George Sauerbrunn and A. H. Frederick through Samuel Bowman & Co. by Valle Reyburn at a rental of \$8,000 a year, being 4 per cent net on a valuation of \$20,000.

Weakness. OUR SUCCESS IN CURING THOSE

OUR SUCCESS IN CURING THOSE derangements commonly termed weakness" has done more to extend our reputation as specialists in men's diseases than any other thing. We were first to discover the fact that "weakness" is merely a symptom resulting from a chronically inflamed frostate giand, and that to remove this inflammation is the only method of permanently restoring lost vigor. To this day our system of treatment is the only successful one in use. In years we have not failed to effect a complete cure. Of course, there is an occasional case that has passed into that incurable stage, and we do not treat it at all. Our long experience enables us to recognize them and to select only such cases as we can cure permanently.
